

Preliminary results

1. From the general questionnaires, it appears that:

We are concerned about: dangerous, inconsiderate parking of vehicles; speeding through the village; vandalism and antisocial behaviour; underage drinking on the streets; heavy vehicles coming through the village; the scruffiness of the village, especially the High Street.

We would like: a greater police presence, especially on foot and particularly at weekends and at night; more enforcement of the law on parking and speeding; more activities for young people; more buses – especially late at night.

2. **Young people** would like extra activities, and are concerned about litter.
3. Results of **business questionnaires** will be available soon
